WORK EXPERIENCE

Web Developer Intern - BLINC Technologies Corporation

2025

Completed a multi-track internship at BLINC Technologies, a blockchain-focused web development and consultancy firm based in Baguio City. During my tenure, I gained hands-on experience in real-world project with BLINC's core services and values.

PROJECTS

WiseSaver

2024

Mobile Application Development Project

A localized money management mobile application developed using Android Studio (Kotlin). The app allows users to create a personal wallet, input their available funds, and track expenses by deducting transactions.

Role: Back-end Developer

The Daily Crave

2025

Web Development Project

Developed a blog website using Laravel with features for post creation, editing, and user management. Focused on clean UI, efficient backend logic, and responsive design.

Role: Full Stack Developer

Coffea

2025

IT Project

A responsive web application and coffee shop website featuring an AI-powered chatbot. The chatbot provides personalized menu recommendation based on user taste preferences and integrates seamlessly with the site's interface

Role: Full Stack Developer

EDUCATION

Bachelor of Science in Information Technology

2022 - 2025

University of the Cordillera
